

# AUDITING

---

Auditing is available for currently enrolled students who have successfully completed a class for credit the maximum times allowed at Cypress College. Enrolled students who wish to audit a class must file an audit petition which is available at the Admissions and Records Office.

The petition must be submitted during the second week of the class. Upon consultation with the instructor and the dean of the division involved, the Admissions and Records Office will review the petition for approval or denial. Once the request has been approved, students will not be permitted to change from an audit to a credit status. Auditing a class does not result in a grade posted to the student's transcript. For required fees and additional information, contact the Admissions and Records Office.
